

Michael Naidoo

Game Designer

University graduate with a 4 year formal education in system and experience design targeted towards the development of games. I am currently a trainer at Logischool, having previously worked in a similar position at the company's Bedford View branch. Between the two positions, I served as the Wits Sports Council Secretary and the Wits Tang Soo Do Club Chairman. I am an aspiring System/UX Designer with an expressed interest in how users experience the system I create.

EXPERIENCE

TRAINER LOGISCHOOL SANDTON

Oct 2025 – Present

- Taught programming principals using Game Design as a fun, engaging medium
- Taught game design principals through play using Roblox as a teaching and development environment.
- Automated the lengthy class reflection administrative process saving trainers up to 24 minutes per class.

SECRETARY WITS SPORTS COUNCIL

Nov 2024 – Nov 2025

- Oversaw the administrative processes of the Wits Sports Council
- Increased interclub events by 300% over 2024.
- Finalised the first official constitution of the Wits Sports Council in almost a decade.

CHAIRMAN WITS TANG SOO DO CLUB

Nov 2023 - Nov 2024

- Oversaw all operations of the Wits Tang Soo Do club.
- Compared the club's operations to those of more successful clubs, resulting in:
 - > An increase of 50% in revenue generating events.
 - > An increase of 100% in member retention, leading to a 100% increase in club income from membership fees.

TRAINER

LOGISCHOOL BEDFORDVIEW

Nov 2023 – Jan 2024

- Taught game design principals through play using Roblox as an interactive and engaging learning environment.
- Focused on using gaming and game design to facilitate learning for children with learning disabilities.

- Microsoft Office
- Predictive Modeling
- Attention to Detail

PROJECTS

Samurai Senshi – A 2D Samurai-based fighting game that uses a combination of weapons with set move sets to create different characters, allowing for the easy expansion of unique-feeling characters.

Social Glow – A 3D narrative game that criticises cancel culture using a dual status system to track and affect the player's progress.

Hillclimb Chicken Horse – A 2D sandbox racing game where you need to replay levels after adding in additional obstacles.
